8th Alternative Report by Civil Society Organizations on the Implementation of the Convention on Elimination of All Forms of Discrimination Against Women (CEDAW) in Uganda, 2014 Meeting the Challenges to Measurement in an Era of Accountability Henry Braun, 2016-01-29 Under pressure and support from the federal government states have increasingly turned to indicators based on student test scores to evaluate teachers and schools as well as students themselves The focus thus far has been on test scores in those subject areas where there is a sequence of consecutive tests such as in mathematics or English language arts with a focus on grades 4-8 Teachers in these subject areas however constitute less than thirty percent of the teacher workforce in a district Comparatively little has been written about the measurement of achievement in the other grades and subjects This volume seeks to remedy this imbalance by focusing on the assessment of student achievement in a broad range of grade levels and subject areas with particular attention to their use in the evaluation of teachers and schools in all It addresses traditional end of course tests as well as alternative measures such as portfolios exhibitions and student learning objectives In each case issues related to design and development psychometric considerations and validity challenges are covered from both a generic and a content specific perspective The NCME Applications of Educational Measurement and Assessment series includes edited volumes designed to inform research based applications of educational measurement and assessment Edited by leading experts these books are comprehensive and practical resources on the latest developments in the field The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license *Demythologizing Educational Reforms* Arthur T. Costigan, Leslee Grey, 2014-08-21 There are dozens of myths surrounding educational reform today maintaining the school's role in economic competitiveness the deficiency of teachers the benefits of increased testing and the worthiness of privatization In this volume the editors argue that this discussion has been co-opted to reflect the values and worldviews of special interest groups such as elites in power politicians corporate educational foundations and the media Prominent educational writers tackle contemporary issues such as neoliberalism suburban schooling charter schools and parental involvement They expose the logic behind the talk and critically examine these problematic beliefs to uncover meaningful improvements in education which are better grounded in the social economic political and educational realities of contemporary society **Just Financial Markets?** Lisa Herzog, 2017 Well functioning financial markets are crucial for the economic well being and the justice of contemporary societies The Great Financial Crisis has shown that a perspective that naively trusts in the self-regulating powers of free markets cannot capture what is at stake in understanding and regulating financial markets The damage done by the Great Financial Crisis including its distributive consequences raises serious questions about the justice of financial markets as we know them This volume brings together leading scholars from political theory law and economics in order to explore the relation between justice and

financial markets Broadening the perspective from a purely economic one to a liberal egalitarian one the volume explores foundational normative questions about how to conceptualize justice in relation to financial markets the biases in the legal frameworks of financial markets that produce unjust outcomes and perspectives of justice on specific institutions and practices in contemporary financial markets Written in a clear and accessible language the volume presents analyses of how financial markets should function and how the Great Financial Crisis came about proposals for how the structures of financial markets could be reformed and analysis of why reform is not happening at the speed that would be desirable from a perspective of justice Official Florida Statutes Florida,2013 **Boots on the Ground** Johanu Botha,2022-03-31 Over the last century the scale of Canada s domestic disaster response system has grown significantly due to the country s increased capacity for emergency management and the rise in natural hazards However there has been no systematic assessment of how effectively this multilevel system which includes all levels of government and the military has been integrated and how efficient this system actually is at responding to high level disasters Using in depth archival analysis and interviews with senior military and civilian officials on the inside *Boots on the Ground* provides a detailed examination of Canada s disaster response system Including policy recommendations focused on the expansion of emergency management networks the maintenance of Canada s decentralized emergency management system and disaster response resources for First Nations communities *Boots on the Ground* aims to highlight opportunities to improve Canada s urgent disaster response *Boots on the Ground* offers helpful lessons for students policy makers emergency management practitioners and military officers ensuring that readers gain concrete insights into the strategic and efficient implementation of disaster response initiatives
