Now that you have completed this four-part reorganisation exercise, you are ready to perform the end of month posting procedure. The purpose of this end of month posting is to transfer the totals from the special journals to the appropriate general ledger accounts so that the balances of those ledger accounts reflect all of the transactions that occurred throughout that period.

Instructions for end-of month posting

1. Total the remaining columns in the special journals. Record the amount in the Total row of each journal.
2. Post the totals of the remaining columns in the special journals to their corresponding ledger accounts. To confirm that the posting has been performed, a posting reference is recorded in the last row of the special journals. If the total of a column is not required to be posted, you need to record an **N** in the post reference line for that column.
3. Record the first unadjusted balance of each ledger account in the Unadjusted Balance row of each ledger. Close the ledgers with a balance of zero. Although each ledger starts with a running balance, the Unadjusted Balance row must not be filled out or used to receive full points.

Ready for Ready functionality

Remember:

- Post all answers to the **special journal ledger**.
- The **total** row is recorded in **debit** the **journal**, and **credit** the **balance** provided in previous weeks.

Before pressing the **Submit answers** button, we recommend that you click the **Show all** tab and check that all relevant accounting records have been completed.
