Scaling up SDGs Implementation Godwell Nhamo, Gbadebo O. A. Odularu, Vuyo Mjimba, 2020-01-14. This volume challenges global leaders and citizenry to do more in order to resource the implementation of the 2030 Agenda for Sustainable Development AfSD and its 17 interwoven Sustainable Development Goals SDGs. Starting from the concept we cannot manage what we cannot measure the book presents some cases showing how to draw national level baselines for the domestication and localisation of the SDGs seeking to provide a clear roadmap towards achieving the 2030 AfSD. Scaling up SDGs Implementation is targeted at the United Nations national and state governments, sub-national governments, the corporate sector and civil society including higher education institutes, labour groups, non-governmental organisations and youth movements. The book is cognizant of these institutions' common but differentiated responsibilities and capabilities within their socio-political, environmental and economic conditions. The book presents case studies of how the corporate sector has been scaling up SDGs implementation from the tourism sector, insurance to the aviation and agricultural sectors. To make sure that no one is left behind the volume includes cases on solutions for pressing environmental and socio-economic problems ranging from cooperatives in Brazil to the conservation of springs in Zimbabwe. The matter of finding synergies between the climate SDG and the Paris Agreement's Nationally Determined Contributions (NDCs) is elaborated at length. Lastly, the book discusses how institutions of higher education remain critical pillars in SDGs scaling up with cases of curriculum re-orientation in South Africa to the rolling out of the Women's University in Africa. In this context, this volume challenges every global citizen and organization to invest every effort into making the implementation of the SDGs a success as we welcome the second four to five year segment down the road to the year 2030.
