Palestine (West Bank and Gaza) Education System and Policy Handbook

Volume 1 Strategic Information and Developments IBP, Inc.,2008-03-03 Palestine Education System and Policy Handbook

South African Schooling: The Enigma of Inequality Nic Spaull,Jonathan D. Jansen,2019-11-05 This volume brings together many of South Africa s leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90 10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people s future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI

Burrill, Leandro de Oliveria Souza, Enriqueta Reston, 2023-07-21 This book is derived from selected papers from the Fourteenth International Congress on Mathematical Education Topic Study Group 12 Teaching and Learning Statistics It describes recent research on curriculum pedagogy and outreach initiatives from countries as diverse as Brazil Chile Columbia Denmark Germany the Netherlands Spain Sweden Thailand Turkey the United Kingdom and the United States The book has a focus on the use of data in the teaching and learning of statistics across grade levels and begins with an overview of the status of statistics education and the use of data from seven different countries across the continents and the link between research and practice in those countries Because it contains specific examples of the research for example on the ways children learn the choice and implementation of tasks or the role of informal inference the book will be a great resource to those interested and involved in the teaching of statistics curriculum developers and statistics education researchers

Global Perspective on Issues and Trends in Educational Translanguaging Bautista, Jude Cañero, Kim, Jean, 2025-05-29 The growing superdiversity around the world now appears to be the norm In traditional English speaking inner circle nations it is becoming increasingly rare to find classrooms with students who come from monocultural and monolingual backgrounds However teaching practices remain based on Anglocentric standards and perspectives even when most of the English speakers in the world are no longer just the monolingual speakers of the language Research in bilingualism and multilingualism reverberate the potential of translanguaging as a pedagogical practice This is to leverage all the linguistic cultural and semiotic resources of learners so that they can actively engage in the language literacy and content area learning processes in the classroom However even though it has gained ground in theory and research it has not been upheld in instructional practice especially in the Anglophone nations While some regions view translanguaging as a

pathway to educational justice others face barriers such as limited resources administrative constraints or lack of teacher training Despite its promise concerns remain around the selective use of languages and the risk of reinforcing existing linguistic hierarchies Global Perspective on Issues and Trends in Educational Translanguaging explores translanguaging pedagogies from both monolingual English speaking contexts and multilingual and multicultural contexts It examines a monolingual multilingual pairing of theoretical research and practical perspectives from around the world assessing how translanguaging pedagogies are practiced and researched worldwide This book covers topics such as indigenous studies migrant learners and pedagogy and is a useful resource for educators language experts academicians researchers and scientists
