The Hidden Pattern Ben Goertzel, 2006 The Hidden Pattern presents a novel philosophy of mind intended to form a coherent conceptual framework within which it is possible to understand the diverse aspects of mind and intelligence in a unified way The central concept of the philosophy presented is the concept of pattern minds and the world they live in and co create are viewed as patterned systems of patterns evolving over time and various aspects of subjective experience and individual and social intelligence are analyzed in detail in this light Many of the ideas presented are motivated by recent research in artificial intelligence and cognitive science and the author's own AI research is discussed in moderate detail in one chapter However the scope of the book is broader than this incorporating insights from sources as diverse as Vedantic philosophy psychedelic psychotherapy Nietzschean and Peircean metaphysics and quantum theory One of the unique aspects of the patternist approach is the way it seamlessly fuses the mechanistic engineering oriented approach to intelligence and the introspective experiential approach to intelligence

Digital Knowledge Maps in Education Dirk Ifenthaler, Ria Hanewald, 2013-11-01 Digital knowledge maps are at a glance visual representations that enable enriching imaginative and transformative ways for teaching and learning with the potential to enhance positive educational outcomes The use of such maps has generated much attention and interest among tertiary education practitioners and researchers over the last few years as higher education institutions around the world begin to invest heavily into new technologies designed to provide online spaces within which to build resources and conduct activities The

key elements of this edited volume will comprise original and innovative contributions to existing scholarship in this field with examples of pedagogical possibilities as they are currently practiced across a range of contexts It will contain chapters that address theory research and practical issues related to the use of digital knowledge maps in all aspects of tertiary education and draws predominantly on international perspectives with a diverse group of invited contributors Reports on empirical studies as well as theoretical conceptual chapters that engage deeply with pertinent questions and issues raised from a pedagogical social cultural philosophical and or ethical standpoint are included Systematic literature reviews dealing with digital knowledge mapping in education are also an integral part of the volume Resources in Education ,1997

The Pattern Kevin Jeffers,2023-01-21 WHAT IS THE PATTERN This book shares my experiences as a soul traveler healer and energy specialist It teaches how to achieve spiritual freedom through a unique expression of consciousness I discovered this insight when my consciousness left my body during a deep meditation Focusing my attention I found myself in a limitless field of clear sparkling blue and white lines that intersected These energy lines formed a grid pulsating with starry lights the countless manifestations of consciousness striving for greater self awareness What I experienced that day what I call the Pattern informed the rest of my life Striving to know my soul s origin and destination I continue to merge with the Pattern to experience the Creator s intent the uplift of all forms of consciousness The Pattern points to a pathway for you to experience a greater knowledge of Spirit s ultimate design This is a story of revelation and action of the journey undertaken on the path to conscious living in both the physical and nonphysical worlds It is not an easy path but made smoother by the insights that Kevin Jeffers brings to the subject His stories are compelling His prose helps illuminate what is essentially ineffable Kevin brings a new lens on the two most fundamental inquiries of our time the nature of Spiritual revelation and uplift of consciousness DR SCOTT TAYLOR Former President Executive Director of the Monroe Institute
