Banasik, 2026-03-15 More than 1,500 questions in a variety of formats including labeling, multiple choice, true/false, fill-in-the-blank, compare/contrast, and matching. Variety keeps the student engaged, and the quantity of questions ensures students have opportunity for in-depth practice sessions. Multiple case studies appear at the end of each unit, with almost 50 case studies in all. Case studies will feature questions that help students develop clinical reasoning and judgment, but because pathophysiology is used by more than undergraduate nursing students, we will be careful about branding them as strictly NGN.
