The collection also includes several articles that introduce, compare, contrast, and complement the theories of other notable authors in these fields, such as Zecharia Sitchin, Paul LaViolette, John Michell, and John Anthony West.

Green Medicine
Larry Malerba, D.O., 2011-03-15

According to Dr. Larry Malerba, modern medicine has perfected the short-term technical repair of the physical body at the expense of the long-term psychological and spiritual well-being of the whole person. In *Green Medicine*, he examines this issue and provides a realistic blueprint for wellness and a valuable guide for those seeking deeper and more lasting healing. Written in an accessible style, the book draws on a rich range of fields: physics, philosophy, Jungian thought, shamanism, alchemy, Eastern thought, Western esotericism, sustainability, orthodox medicine, to create a green medical paradigm that represents a powerful integrative medical perspective. Dr. Malerba interweaves case histories from his own practice with innovative concepts from alternative and Western medicine in order to address a number of crucial questions: What are the personal and environmental costs to the overuse of pharmaceutical drugs? Is conventional medicine as scientific as it claims to be? How can conventional doctors and alternative healers begin to work together? How can individuals transform medicine and become participants in their own healthcare? *Green Medicine* offers a practical and philosophical basis for building a viable green alternative that draws on the inherent unity of body, heart, mind, soul, and nature.
