

Animal Farm Chapter Four Questions

Directions: Answer each in a complete sentence. Use textual evidence to support your response.

1. What do Snowball and Napoleon do to encourage the spread of Animalism?

Snowball and Napoleon encourage the spread of Animalism by sending "out flights of pigeons whose instructions were to mingle with the animals on neighboring farms" (Orwell, 54).

2. Who are Frederick and Pilkington?

Frederick and Pilkington are the owners of the farms that reside on each side of Animal Farm.

3. In what ways do the humans try and stop the spread of Animalism?

The humans try and stop the spread of Animalism by stating "the animals there practiced cannibalism, tortured one another with red-hot horseshoes, and had females in common" (Orwell, 55). They were basically trying to spread lies so that the animals would not want to rebel.

4. Where does Snowball get his ideas for defending Animal Farm?

Snowball gets his ideas for defending Animal Farm by studying "an old book of Julius Caesar's campaigns" (Orwell, 57).

5. Describe how the animals are able to successfully defend the farm against the humans.

The animals are able to successfully defend the farm against the humans by working together and strategically planning their defenses.

6. Which animals are injured or killed during the battle?

During the battle, Snowball is injured and one sheep is killed.

7. How do the animals celebrate their victory?

The animals celebrate their victory by reassembling "in the wildest excitement, each recounting his own exploits in the battle" (Orwell, 59).

They also hoisted the flag and sung *Beasts of England*.

8. What part does Napoleon play during the Battle of the Cowshed? What do you think this says about him? During the Battle of the Cowshed, Napoleon was not present whatsoever. His lack of presence shows that Napoleon does not care for the well-being of everyone and does not share in the defense of the farm.

Meijboom,Elsbeth N.

Stassen,2023-08-07 Killing animals is common practice yet it is not morally neutral The end of animal life is related to many societal and ethical questions and concerns Questions such as how long should we continue to treat an animal before putting it down But also the question whether it could be legitimate to kill individual animals for the welfare of the herd or of future generations The ongoing public and academic discussions on these and on other well known questions like those related to the killing of animals for food or for scientific purposes show that there is no one standard evaluation of animal life This book is an edited volume that enables the reader to get a grip on that plurality of views with regard to animals It helps to deal with the many questions related to the end of animal life The chapters show how the plurality of views on killing animals is related to moral presuppositions by providing a clear overview of the ethical views on end of life decisions Furthermore the book contains a number of applied studies of the ethical questions related to killing animals in various practices including small animal practice wildlife management fishing and fish farming animal experimentation and livestock farming These chapters can help veterinarians scientists students policy makers and many other professionals working with animals to easily get a good overview of the issues at stake and may contribute to responsible decision making with regard to the end of animal life
