The Anthropic Principle: A Universe Built for Man Anthony Walsh, 2023-01-10 The Copernican Principle states that humankind is an insignificant assemblage of chemical scum living on an accidental planet in a suburb of a purposeless universe Many prominent scientists including Nobel laureate physicists have questioned this scurrilous principle which has led physicists to propose the Anthropic Principle This principle posits a purposeful link between the structure of the universe and the existence of humankind and its specialness The numerous

features of the universe are so freakishly fine tuned for the existence of intelligent life that physicists are beginning to come to grips with the notion that our universe is profoundly purposeful and that there is a powerful and incredibly intelligent Mind behind it all
