readers inside the league's global operations and traces the history of the NBA's approach to sports media from its 1980s embrace of cable through the streaming revolution of the twenty-first century. As fans around the world stream games and other league content, NBA teams incorporate foreign languages and cultures into broadcasts to boost their product's appeal to audiences in Brazil, China, and beyond. Secular's analysis reveals how the NBA continues to transform itself into a wildly successful media producer and distributor, more akin to a streaming studio than the sports leagues of old, even as its media partners and sponsors erase any notion of sports as a civic good. A timely look at a dynamic media landscape. **The Digital NBA** shows how the games we love became content first and sport a distant second.

The Black Migrant Athlete Munene Franjo Mwaniki, 2017-09 The popularity and globalization of sport have led to an ever-increasing migration of Black athletes from the global South to the United States and Western Europe. While the hegemonic ideology surrounding sport is that it brings diverse people together and ameliorates social divisions, sociologists of sport have shown this to be a gross simplification. Instead, sport and its narratives often reinforce and re-create stereotypes and social boundaries, especially regarding race and the prowess and the position of the Black athlete. Because sport is a contested terrain for maintaining and challenging racial norms and boundaries, the Black athlete has always impacted popular white perceptions of Blackness in a global manner. **The Black Migrant Athlete** analyzes the construction of race in Western societies through a study of the Black African migrant athlete. Munene Franjo Mwaniki presents ten Black African migrant athletes as a conceptual starting point to interrogate the nuances of white supremacy and of the migrant and immigrant experience with a global perspective. By using celebrity athletes such as Hakeem Olajuwon, Dikembe Mutombo, and Catherine Ndereba as entry points into a global discourse, Mwaniki explores how these athletes are wrapped in social and cultural meanings by predominately white-owned and dominated media organizations. Drawing from discourse analysis and cultural studies, Mwaniki examines the various power relations via media texts regarding race, gender, sexuality, class, and nationality.
