Nba Highlights Pro:

Interdisciplinary Analyses of Professional Basketball Till Neuhaus, Niklas Thomas, 2024-01-03 This edited collection conceptualizes professional basketball not just as a sport but as an historically culturally and economically embedded entity. The chapters analyse the fact that the sport of basketball contains alternative logics that can easily clash and by treating professional basketball as the negotiation place of these multiple demands ideas and logics the editors have identified three areas in which these clashes manifest the realization of the game the cultural impact of professional basketball and the global outreach of professional basketball. The book is explanatory and qualitative offering new perspectives and touching on topics including gender diversity racism and minority experiences within professional basketball. Highlights Ray Gamache, 2023-09-07 This expanded second edition traces the development and popularity of the sportscast highlight the dominant news frame in the crowded medium of electronic sports journalism as the primary means of communicating about sports and athletes. The book explores the intricate relationships among media producers sports leagues and organizations and audiences and explains that sportscast highlights are not a recent development. They were often used within a news context in every medium from early news film actualities and newsreels to network and cable television to today's new media platforms. New to this edition are three chapters that explore developments in sports media from cultural economic and technological perspectives. An obsession with highlights has seen video replay increasingly used to adjudicate sporting events marking a new level of reliance on technology. The media's quest for greater certitude and integrity corresponds with the rise of sponsorship of pro teams by gambling operators with sports betting ads and on screen odds now routinely appearing in sportscasts. Long form sports documentaries have become popular often highlighting a fascination with firsts rooted in notions of human conquest over nature that has remained an important source of sports mythmaking *Principles and Practice of Sport Management* Lisa Pike Masteralexis, Carol A.
