This open access book links the artistic and cultural turn in migration studies to the larger struggle for narrative and cultural change in European migration societies. It proposes theoretical and methodological approaches that highlight how ideas of change expressed in artistic and cultural practices spread and lead to wider cultural change. The book also looks at the slow processes of change in large cultural institutions that emerged at a time when culture was nationalised. Finally, the book discusses how migration researchers have cooperated with arts and cultural producers and used artistic means to increase the effect of their research in the wider public. As such, the book provides a great resource for graduate students and researchers in the social sciences and the humanities who have an interest in migration studies and want to move beyond interpreting the world towards changing it.

Demystifying Creativity Fawzi Mesmar, 2024-12-24. This book is a study of the psychology, neuroscience, and philosophy of creativity, originality, and inspiration viewed from the lens of a seasoned game developer. It introduces the concept of creative sobriety, a practice that advocates better understanding our own sources of inspiration so that we can intellectually drive our creative voice closer to originality. The creative process is an improvised dance between the conscious and the subconscious mind where knowledge, experience, intuition, observation, imagination, and projection meet in ways that are completely unique to each person. Presenting practical and theoretical approaches to originality and game concept generation, this book explores the notion of creative sobriety before moving to chapters that blend theory and practice, covering topics such as innovation, the creative process, auteurship, collaboration, and creative vision. This book will be of great interest to students of game design and creative professionals working within the industry as well as those looking to learn more about the creative process.
