Tales from the Northeast Richard A. Pazasis, 2024-06-27 Writing is finally about one thing going into a room alone and doing it putting words on paper that have never been in quite that way before William Goldman award winning author and screenwriter The northeastern section of the United States specifically Connecticut Maine Massachusetts New Hampshire New York Rhode Island and Vermont offers us some of the richest history in our nation There is a plethora of well known geographical areas and individuals that and who have been a significant influence on our country s great history In addition there are many not so well known geographical areas and individuals that and who have also made such remarkable contributions Because of what seems to be a modern day lack of knowledge and appreciation for our country s history including a recent trend to erase documented records of actual historical events and statues of prominent individuals I have decided to compose several short stories highlighting both well known and not so well known geographical areas and individuals from the northeastern section of the United States that and who have made significant contributions to our great nation s history I have chosen to present such information in a fictional short story format just as several very early American writers did which is described within the introduction to a compendium entitled Great American Short Stories published by the Fall River Press of New York City According to the publisher Americans have been writing short stories for almost as long as Americans have been writing fiction in which writers strove to capture the character of their fledgling country In addition the publication mentioned that writers like Washington Irving Nathaniel Hawthorne and Edgar Allen Poe used the short story format because it showed itself to be adaptable to a wide variety of themes and approaches that might not have been executed as well at novel length and that found it the perfect tool for turning folklore and superstitions into literary tall tales In addition I have selected to utilize the short story format as the result of being influenced by one of our country s most prolific authors Stephen King Although mostly known for his novels Stephen King felt that short stories were too much forgotten He authored many short stories himself and stated that The leap of faith necessary to make the short story happen has gotten particularly tough in the last few years these days it seems that everything wants to be a novel He also wrote that A short story is a different thing altogether a short story is like a quick kiss in the dark from a stranger Whether or not today s readers have short attention spans I feel that having utilized a short story structure has allowed me to present important historical facts and my thoughts in a most concise quick kiss format thus enticing the public to be more inclined to read about our great nation s history And since Stephen King also wrote that Fiction is the truth inside the lie all my short stories

are a combination of true historical and scientific facts as well as made up scenarios or storylines Finally although the main characters and storylines in my short stories are fictional the facts related to the geographical areas historical individuals and scientific facts are real *The Idea of a Writing Laboratory* Neal Lerner,2009-07-09 The Idea of a Writing Laboratory is a book about possibilities about teaching and learning to write in ways that can transform both teachers and students Author Neal Lerner explores higher education s rich history of writing instruction in classrooms writing centers and science laboratories By tracing the roots of writing and science educators recognition that the method of the lab hands on student activity is essential to learning Lerner offers the hope that the idea of a writing laboratory will be fully realized more than a century after both fields began the experiment Beginning in the late nineteenth century writing instructors and science teachers recognized that mass instruction was inadequate for a burgeoning non traditional student population and that experimental or laboratory methods could prove to be more effective Lerner traces the history of writing instruction via laboratory methods and examines its successes and failures through case studies of individual programs and larger reform initiatives Contrasting the University of Minnesota General College Writing Laboratory with the Dartmouth College Writing Clinic for example Lerner offers a cautionary tale of the fine line between experimenting with teaching students to write and curing the students of the disease of bad writing The history of writing within science education also wends its way through Lerner s engaging work presenting the pedagogical origins of laboratory methods to offer educators in science in addition to those in writing studies possibilities for long sought after reform The Idea of a Writing Laboratory compels readers and writers to don those white coats and safety glasses and discover what works and asserts that teaching writing as an experiment in what is possible as a way of offering meaning making opportunities for students no matter the subject matter is an endeavor worth the struggle *My Years in the Early Peace Corps: Ethiopia, 1965-1966* Sonja Krause

Goodwin,2021-09-17 The author describes her second year as a Peace Corps Volunteer teaching Chemistry in the Gondar Health College in Gondar Ethiopia a branch of Haile Selassie I University where she lectured taught laboratory courses and mixed solutions for her laboratory courses The students were not prepared for the classroom and she delves into her efforts to motivate them The college was also the local hospital and she describes her interactions with many physicians she met working at the hospital mostly expatriates She also describes her vacation travels during that time in and around Ethiopia and also to Kenya Tanzania and Uganda She visited several game parks and climbed Mt Kilimanjaro Goodwin also writes about her interactions fellow college teachers Peace Corps volunteers and Ethiopians She describes several instances of anti Peace Corps agitation in Ethiopia especially its effect on the local secondary school , **Kinn's Medical Assisting Fundamentals** Brigitte Niedzwiecki,Julie Pepper,P.
