Biology ,1999 **They Touched My Life** Robert Rose Ph.D.,2000-10-18 Be an elementary teacher In 1958 this was not even a consideration I was going to be a child psychiatrist and novelist I hadnt done any writing during my four years in the U S Air Force but I had functioned as a psychologist social worker At twenty one I had my own office and I was giving marriage counseling to noncommissioned officers and officers who were decades older than I was I had practical experience doing individual and group therapy and even used psychodrama techniques The psychiatrists I worked with all believed I was a natural therapist and they gave me dozens of books to read we discussed their cases and they wrote recommendations for me for medical school My goals were lofty then reality set in I didnt have the money or grades to become a doctor My bachelors degree in psychology was next to useless A friend suggested I teach while I pursued advanced degrees to become a child psychologist It was a painful compromise I had already given up my dreams of becoming a professional actor or athlete and I would have to be an elementary rather than a high school teacher so I couldnt coach football or track It was like being a dishwasher rather than a restaurant owner There was also the commonly held belief then that a male elementary teacher must be somewhat effeminate if not an outright homosexual Throughout my career people have been surprised disappointed that a man who looks like a light heavyweight boxer could be a teacher of small children Still I had a wife and a child to support so I got a teaching credential I had been bored in school and I was determined to make my classes interesting but I was totally unprepared emotionally educationally or organizationally I was wildly successful only because I was charismatic creative and I truly enjoyed the children The more I realized how much more effective I could be with so many more children every year as a teacher than I could be as a psychologist the more I knew I had stumbled into a great career I had found my calling I could express my artistic self through music art dancing and drama My athletic needs were met by playing with the children while teaching them all the sports I loved I had a captive audience for my need to perform as I read to them dramatically and transmitted my eclectic love of learning I was proficient in many psychological techniques which came in handy as I probed their brains and changed their behaviors I was almost too clinical in the first few years as I secretly tested my children using the ink blot test sentence completion and the TAT ambiguous pictures which I used as means to motivate their writing Later I realized that it was not so much the testing as it was the time I spent individually with children that made the difference I was interested in each of them and they knew it and so they shared their lives inside and outside the

school as if I was their therapist Therapists never get the opportunity to see their clients in the environments that are causing their problems I not only saw things through their eyes and the dynamics of their relationships but I was in the position to actually change these by what I did Whether it was as simple as changing their seat or reading group or placing them in allegedly extemporaneous plays to act out feel a role that they needed to experience I made immediate changes in their lives It was then I knew that my often traumatic experiences as a gifted Jewish child alone in hostile schools where I was seen as an evil presence was not unusual It was not religious racial cultural or gender differences alone it was the very structure of the schools that caused the horrific and demeaning situations that almost every child experiences The const
