Roman Empire, 96-235 Alice König, Rebecca Langlands, James Uden, 2020-04-30 Discovers new connections and cross fertilisations between different cultural linguistic and religious communities in the Roman Empire *Religion & Classical Warfare* Matthew Dillon, Christopher Matthew, 2020-09-22 This study looks at destroying the gods of Rome's enemies wartime ceremonies the role of women in Republican warfare and even the gruesome live burials of people during times of military crisis Religion was integral to the conduct of war in the ancient world and the Romans were certainly no exception No campaign was undertaken no battle risked without first making sacrifice to propitiate the appropriate gods such as Mars god of War or consulting oracles and omens to divine their plans Yet the link between war and religion is an area that has been regularly overlooked by modern scholars examining the conflicts of these times This volume addresses that omission by drawing together the work of experts from across the globe The chapters have been carefully structured by the editors so that this wide array of scholarship combines to give a coherent comprehensive study of the role of religion in the wars of the Roman Republic Aspects considered in depth will include declarations of war evocatio and taking gods away from enemies dedications and ceremonies the cult of the legionary eagle the role of women in Republican warfare omens and divination live burials of people in times of military crisis and the rituals of the Roman triumph Architectural Invention in

Renaissance Rome Yvonne Elet, 2018-01-11 Villa Madama Raphael's late masterwork of architecture landscape and decoration for the Medici popes is a paradigm of the Renaissance villa The creation of this important unfinished complex provides a remarkable case study for the nature of architectural invention Drawing on little known poetry describing the villa while it was on the drawing board as well as ground plans letters and antiquities once installed there Yvonne Elet reveals the design process to have been a dynamic collaborative effort involving humanists as well as architects She explores design as a self reflexive process and the dialectic of text and architectural form illuminating the relation of word and image in Renaissance architectural practice Her revisionist account of architectural design as a process engaging different systems of knowledge visual and verbal has important implications for the relation of architecture and language meaning in architecture

Junior High School Library Catalog ,1997 *Story starters on ancient Rome* ,1990 Includes reproducibles for classroom use The Possibility of an Absolute Architecture Pier Vittorio Aureli,2011-02-11 Architectural form reconsidered in light of a unitary conception of architecture and the city In *The Possibility of an Absolute Architecture* Pier Vittorio Aureli proposes that a sharpened formal consciousness in architecture is a precondition for political cultural and social engagement with the city Aureli uses the term absolute not in the conventional sense of pure but to denote something that is resolutely itself after being separated from its other In the pursuit of the possibility of an absolute architecture the other is the space of the city its extensive organization and its government Politics is agonism through separation and confrontation the very condition of architectural form is to separate and be separated Through its act of separation and being separated architecture reveals at once the essence of the city and the essence of itself as political form the city as the composition of separate parts Aureli revisits the work of four architects whose projects were advanced through the making of architectural form but whose concern was the city at large Andrea Palladio Giovanni Battista Piranesi tienne Louis Boull e and Oswald Mathias Ungers The work of these architects Aureli argues addressed the transformations of the modern city and its urban implications through the elaboration of specific and strategic architectural forms Their projects for the city do not take the form of an overall plan but are expressed as an archipelago of site specific interventions A History of Roman Literature (2 vols.) M. von

Albrecht, 2019-09-16 Michael von Albrecht's *A History of Roman Literature* originally published in German can rightly be seen as the long awaited counterpart to Albin Lesky's *Geschichte der Griechischen Literatur*. In what will probably be the last survey made by a single scholar the whole of Latin literature from Livius Andronicus up to Boethius comes to the fore. Literature is taken here in its broad antique sense and therefore also includes e.g. rhetoric, philosophy and history. Special attention has been given to the influence of Latin literature on subsequent centuries down to our own days. Extensive indices give access to this monument of learning. The introductions in Von Albrecht's texts together with the large bibliographies make further study both more fruitful and easy.
