Derrida wrote extensively on the question of the animal In particular he challenged Heidegger's Husserl's and other philosophers work on the subject questioning their phenomenological criteria for distinguishing humans from animals Examining a range of Derrida's writings including his most recent *L animal que donc je suis* as well as *Aporias Of Spirit* Rams and Rogues Leonard Lawlor reconstructs a portrait of Derrida's views on animality and their intimate connection to his thinking on ethics names and singularity sovereignty and the notion of a common world Derrida believed that humans and animals cannot be substantially separated yet neither do they form a continuous species Instead in his staggered analogy Derrida asserts that all living beings are weak and therefore capable of suffering This controversial claim both refuted the notion that humans and animals possess autonomy and contradicted the assumption that they possess the trait of machinery However it does offer the foundation for an argument which Lawlor brilliantly and passionately defines in his book in which humans are able to will this weakness into a kind of unconditional hospitality Humans are not strong enough to keep themselves separate from animals In other words we are too weak to keep animals from entering into our sphere Lawlor's argument is a bold approach to remedying the problem of the worst or the complete extermination of life which is fast becoming a reality

Victorian Paper Art and Craft Deborah Lutz,2022-09-22 This book shows how authors in nineteenth century Britain used the materials of writing and of reading drawing and handicraft for inspiration and creative composition In doing so it reshapes the sensory history of working on and with paper These activities were many and varied Charlotte Bront composed poems and doodled in the margins of school books George Eliot recorded writing ideas on her blotter Elizabeth Barrett Browning sewed paper to paper to edit her poems and Jane Austen employed straight pins to cut and paste Albums provided a playful space to collect and to produce text and collage gifts for friends circumventing print culture for a more intimate book making as Elizabeth Gaskell and Anna Atkins knew Notebooks and commonplace books were vital to Eliot Michael Field and Emily Bront as part of a writing process Writers experimented with crafts and needlework to compose text without paper and ink most notably in the case of samplers What writing and drawing happened on including bibles sewing patterns and walls mattered as related to and generative of the themes of the work This expansive field of meanings that creativity with textual and material things could have was common to the Victorians but the writers explored here were extravagant even among their self reflexive contemporaries in their undoing remaking miniaturizing encrypting reusing and transforming The edge of the page the width of the margin the covers of the book were limiting factors but also provocations to push on further be radical Marriage, Dowry, and Citizenship in Late Medieval and Renaissance Italy Julius Kirshner,2015-02-26 Through his research on the status of women in Florence and other Italian cities Julius Kirshner helped to establish the socio legal history of women in late medieval and Renaissance Italy and challenge the idea that Florentine women had an inferior legal position and civic status In *Marriage Dowry and Citizenship in Late Medieval and Renaissance Italy* Kirshner collects nine important essays which address these issues in Florence and the cities of northern and central Italy Using a cross disciplinary approach that draws on the methodologies of both social and legal history the essays in this collection present a wealth of examples of daughters wives and widows acting as full fledged social and legal actors Revised and updated to reflect current scholarship the essays in *Marriage Dowry and Citizenship in Late Medieval and Renaissance Italy* appear alongside an extended introduction which situates them within the broader field of Renaissance legal history *Atonement and Self-Sacrifice in Nineteenth-Century Narrative* Jan-Melissa Schramm,2012-06-21 Jan Melissa Schramm explores the conflicted attitude of the Victorian novel to sacrifice and the act of substitution on which it depends The Christian idea of redemption celebrated the suffering of the innocent to embrace a life of metaphorical self sacrifice was to follow in the

footsteps of Christ's literal Passion. Moreover, the ethical agenda of fiction relied on the expansion of sympathy which imaginative substitution was seen to encourage. But Victorian criminal law sought to calibrate punishment and culpability as it repudiated archaic models of sacrifice that scapegoated the innocent. The tension between these models is registered creatively in the fiction of novelists such as Dickens, Gaskell, and Eliot at a time when acts of Chartist protest, national sacrifices made during the Crimean War, and the extension of the franchise combined to call into question what it means for one man to stand for and perhaps even die for another.
