Generation Revolution Rachel Aspden, 2016 In 2003 Rachel Aspden arrived in Egypt as a 23 year old trainee journalist She found a country on the brink of change Of Egypt's 80 million citizens two thirds were under 30 The new generation were stifled broken and frustrated caught between a dictatorship with nothing to offer them and autocratic parents still clinging to tradition and obedience after a lifetime of fear In January 2011 the young people's patience ran out They thought the revolution that followed would change everything for them But as violence escalated the economy collapsed and as the united front against Mubarak shattered into sectarianism many found themselves wavering hesitant to discard the old ways What happens when a revolution unravels Why is a generation raised on Hollywood movies and global brand names turning to religion How do you choose between sex and tradition consumerism and faith Why would people who once chanted for freedom support a military state And where will the next generation take the Middle East Following the stories of four young Egyptians Amr the atheist software engineer Amal the village girl who defied her family and her entire community Ayman the one time religious extremist and Ruqayah the would be teenage martyr *Generation Revolution* unravels the complex forces shaping the lives of young people caught between tradition and modernity and what their stories mean for the future of the Middle East

which suggests that revolutionaries have agency and the Marxist school which sees state institutions as nothing more than a front for class interests Skocpol's model assumes that states are autonomous bureaucratic institutions which act in their own interests a fundamental reimagining based on fresh interpretations of the evidence Her analysis extends beyond the causes of revolution to their consequences and her argument that the revolutionary state that survives is the one that successfully implements a far reaching program of reform helps to explain not only why the three revolutions she studied have proved enduringly influential but also why hundreds of others less successful are barely remembered today *Hearings, Reports and Prints of the Senate Committee on the Judiciary* United States.
