

Memorandum

Dated: 14 January 2023

To: Sales & Marketing Group

From: Praveenkumar Revankar, Product Engineering

Subject: Delay in release timelines of Feature A and Feature B.

Purpose:

The purpose of this document is to notify the cross-functional group about sudden changes in release timelines of Feature A and Feature B and to reinform the group to reprioritize certain tasks for Sales and Marketing for the release.

Background/Context:

We have been working together on our key USP features 'Feature A' and 'Feature B' for targeting their release this quarter. Due to unforeseen circumstances, there is a change in the release timelines and the new timeline will be shared shortly in Scrum of Scrum meeting where a representative from Sales has been invited.

Action:

Even though it looks like a major setback and current activities w.r.t. The release can be paused, there are certain actions that have to be performed in this quarter. The same has been conveyed in Jira, marking the work items with labels "Q1_Paused" and "Q1_Must." Please reprioritize your internal activities based on the labels in Jira and ensure a final plan reflected in Jira on or before 30 January 2023.

Conclusion:

We might be delayed with the release but we are not affecting the business. The necessary strategy is defined and put in place to ensure customers can solve their problems using our support until Feature A and Feature B release.

Thanks,
Praveenkumar Revankar

Engel, 2019-06-01 A sweeping historical and political account of how our present day policy debates around citizenship and

equality came to be The landmark Supreme Court decision in June 2015 legalizing the right to same sex marriage marked a major victory in gay and lesbian rights in the United States Once subject to a patchwork of laws granting legal status to same sex couples in some states and not others gay and lesbian Americans now enjoy full legal status for their marriages wherever they travel or reside in the country For many the Supreme Court's ruling means that gay and lesbian citizens are one step closer to full equality with the rest of America In *Fragmented Citizens* Stephen M Engel contends that the present moment in gay and lesbian rights in America is indeed one of considerable advancement and change but that there is still much to be done in shaping American institutions to recognize gays and lesbians as full citizens With impressive scope and fascinating examples Engel traces the relationship between gay and lesbian individuals and the government from the late nineteenth century through the present Engel shows that gays and lesbians are more accurately described as fragmented citizens Despite the marriage ruling Engel argues that LGBT Americans still do not have full legal protections against workplace housing family and other kinds of discrimination There remains a continuing struggle of the state to control the sexuality of gay and lesbian citizens they continue to be fragmented citizens Engel argues that understanding the development of the idea of gay and lesbian individuals as less than whole citizens can help us make sense of the government's continued resistance to full equality despite massive changes in public opinion Furthermore he argues that it was the state's ability to identify and control gay and lesbian citizens that allowed it to develop strong administrative capacities to manage all of its citizens in matters of immigration labor relations and even national security The struggle for gay and lesbian rights then affected not only the lives of those seeking equality but also the very nature of American governance itself *Fragmented Citizens* is a sweeping historical and political account of how our present day policy debates around citizenship and equality came to be

Dream the Size of Freedom R. Joseph Parrott, 2025-07-08 How anti colonial movements in Angola Mozambique and Guinea Bissau reshaped US activist engagement with the Global South from the 1960s through the 1970s Dream the Size of Freedom explores how anti colonial movements in Angola Mozambique and Guinea Bissau reshaped US activist engagement with the Global South from the 1960s through the 1970s and influenced American foreign policy as the Vietnam War drew to a close These Portuguese African liberation movements led by nationalists like Eduardo Mondlane and Amílcar Cabral built global solidarity networks to support their military and social challenges to empire while defending against Western intervention US activists disillusioned with the Cold War came to see African self determination as central to global campaigns for racial and economic justice A broad coalition ranging from Black Power radicals to religious liberals mobilized against the North Atlantic alliance with Portugal In the process this grassroots movement helped define a New Left Internationalism that championed decentralized multiracial organizing and a collaborative vision of US foreign policy to redress historic inequalities between Global North and South Drawing on more than fifty oral histories and research in government and activist archives on three continents in English Portuguese French and Afrikaans R. Joseph Parrott reconstructs the transnational anti imperial network that injected Global South priorities into US political debates Popular protests and informational campaigns led to collaborations with legislators eager to constrain the powerful executive branch In 1976 this grassroots legislative alliance halted Gerald Ford's anti communist intervention against the Soviet backed government of

newly independent Angola This victory of New Left Internationalist ideas anticipated future anti apartheid and Latin American peace movements while also fueling a conservative revival of Cold War containment By exploring US engagement with the contested process of African decolonization Dream the Size of Freedom highlights the origins of two contrasting visions of American foreign policy that defined debates over the country s proper role in the Global South into the 1990s
