All That S Left Of Yesterday Tales Of The Apocalypse:

All That's Left of Yesterday Various Authors, 2015-01-10 Aliens biblical second comings technological meltdowns ecological disasters and global warfare are just a few of the backdrops for apocalyptic fiction the scattered elements of humanity rising from the digital safe haven into a new world void of rules and social conformity But what is the lure of apocalyptic fiction Is it a need to strip ourselves of the material and technical garbage and restore our moral compass Or is it a need to get back to the simplicity of life and make our existence and the lives of those around us more meaningful There is no great consensus of conclusion just a wealth of stories to contemplate *Revelation's Great Love Story* Larry L. Lichtenwalter, 2008 The Book of Revelation The Apocalypse Words that often call to mind bizarre creatures strange seals dreadful plagues and a slew of other mystifying symbols Most of us approach this last book of the Bible with forebodings rather than hope To us John's vision seems more like a nightmare But the elderly apostle begins with a statement that doesn't seem to fit the rest of the book The revelation of Jesus Christ Apparently he intends to unveil something tremendously important about Jesus Something life changing Something we can't afford to miss Larry Lichtenwalter explores a side of Revelation seldom portrayed Christ's passionate love for humanity This recurring theme subtly appears in the imagery and symbolism throughout John's vision The slain Lamb The divine protective sealing The blood bleached white robes The heart wrenching prayer of the saints Without Christ's love these scenes and symbols would mean nothing Ultimately John's vision reveals the extraordinary love of our Savior for His rebellious undeserving children and the incredible reasons we can love Him in return **DAWN OF THE APOCALYPSE** Edgar Allan Poe, William Hope Hodgson, Jack London, Ernest Bramah, Jonathan Swift, Cleveland Moffett, Anthony Trollope, Richard Jefferies, William Dean Howells, Ayn Rand, Samuel Butler, Milo Hastings, Edward Bellamy, Fritz Leiber, Irving E. Cox, Philip Francis Nowlan, Richard Stockham, Ignatius Donnelly, Owen Gregory, H. G. Wells, E. M. Forster, Fred M. White, Mary Shelley, Edward Bulwer-Lytton, Rokeya Sakhawat Hossain, George Griffith, Edwin A. Abbott, Arthur Dudley Vinton, Gertrude Barrows Bennett, Hugh Benson, 2023-11-19 **DAWN OF THE APOCALYPSE** gathers the pinnacle of speculative fiction to explore end times across diverse landscapes from the desolate to the dystopian It stitches a rich tapestry of literary approaches ranging from the classic gothic horror of Edgar Allan Poe to the socio political dystopias envisioned by Ayn Rand and H G Wells and the unique utopian perspective of Edward Bellamy The anthology thrives on its variety not just in the cataclysmic events it portrays but also in the myriad ways these events are perceived and interpreted by its characters Key pieces within this collection stand as milestones in the science fiction genre framing apocalyptic and post apocalyptic narratives as lenses through which we critique and comprehend contemporary societal fears The authors both pioneers and craftsmen of their time come from a broad spectrum of backgrounds each contributing to the anthology's overarching theme with their unique flavor of apocalypse These writers are not just storytellers but visionaries who collectively paint a multifaceted picture of humanity at the brink They belonged

to and were influenced by a range of historical cultural and literary movements from the romanticism and transcendentalism of the 19th century to the early 20th century's modernism and the budding science fiction genre. Their combined works offer a historical capsule of societal anxieties and hopes reflecting on themes of human resilience, the abuse of technology, and the moral dilemmas of progress. **DAWN OF THE APOCALYPSE** is an essential collection for readers eager to dive into the depths of human imagination faced with its own end. It offers an unparalleled opportunity to traverse the vast landscapes of apocalyptic fiction through the eyes of some of the most influential authors in literary history. This anthology not only serves as an academic goldmine for those studying the evolution of speculative fiction and its impact on society but also provides a timeless reflection on humanity's perennial concerns with its own survival and legacy. Readers are invited to witness the end of worlds not just as an exercise in literary exploration but as a mirror to our collective psyche across generations.

Apocalyptic Authoritarianism Hanna E. Morris, 2025-05-23 In *Apocalyptic Authoritarianism* media scholar Hanna E. Morris reveals how national anxieties following the 2016 presidential election have shaped American news coverage of climate change in ways that severely limit how it has come to be known, imagined, and contended with. Looking at climate change reporting across ideologically diverse U.S. news media outlets over the past decade, the book traces how media creates an illusion of control in the present through nostalgic and heroic stories of the past. Morris identifies a new mode of reactionary politics called apocalyptic authoritarianism to describe the post-2016 alignment of historically privileged figures united by a common enemy of the new New Left and a shared appeal to fears of total crisis. Ultimately, Morris calls for a robust and inclusive form of climate journalism and politics to set the nation on a path toward democratic and equitable responses to the climate crisis.

Freeway Fighter #2 Andi Ewington, Ian Livingstone, 2017-06-14 The year is 2024, eighteen months after an unknown virus wiped out over eighty-five percent of the world's population. Former I-400 Driver Bella De La Rosa is one of the remaining fifteen percent living every day on the highway as if it were her last. In this dog-eat-dog, kill-or-be-killed world of post-apocalyptic America, it's hard to know who to trust, especially when certain doom waits just beyond the horizon and death stalks you at every turn.

The Reality of Apocalypse David L. Barr, 2006 Far from spinning a fantasy of what will never be, the book of Revelation depicts an alternate social world in order to shape the community and individual identity of an audience living under imperial rule. To highlight the Apocalypse's meaning for its original audience, this volume focuses on two interrelated themes pulsing throughout: Revelation rhetoric and politics. It considers rhetorical strategies and tactics in Revelation and demonstrates how its rhetoric fits the situation in Roman Asia Minor and the struggle within the Apocalypse community. It also examines community and cultural conflicts, showing how myth, symbol, and liturgy function as means of resistance in an imperial setting. By offering a fresh window on the lively interplay between imagination and history between words and worlds, this volume will be indispensable for anyone seeking to understand current scholarly analysis of the book of Revelation.

Compassionate Eschatology Ted Grimsrud, Michael Hardin, 2011-06-01 Do eschatology and peace go together Is eschatology mostly about retribution and fear or compassion and hope Compassionate Eschatology brings together a group of international scholars representing a wide range of Christian traditions to address these questions Together they make the case that Christianity's teaching about the end times should and can center on Jesus's message of peace and reconciliation Offering a peace oriented reading of the Book of Revelation and other biblical materials relevant to Christian eschatology this book breaks new ground in its consistent message that compassion not retribution stands at the heart of the doctrine of the last things Besides its creative treatment of biblical materials Compassionate Eschatology also makes a distinctive contribution in how several essays engage the thought of Rene Girard and his mimetic theory Girard's project is shown to reinforce the biblical message of eschatological peace **The Oxford Handbook of the Bible and American Popular Culture**

What We Think About When We Try Not To Think About Global Warming Per Espen Stoknes, 2015-04-03 Why does knowing more mean believing and doing less A prescription for change The more facts that pile up about global warming the greater the resistance to them grows making it harder to enact measures to reduce greenhouse gas emissions and prepare communities for the inevitable change ahead It is a catch 22 that starts says psychologist and economist Per Espen Stoknes from an inadequate understanding of the way most humans think act and live in the world around them With dozens of examples from the private sector to government agencies Stoknes shows how to retell the story of climate change and at the same time create positive meaningful actions that can be supported even by deniers In *What We Think About When We Try Not To Think About Global Warming* Stoknes not only masterfully identifies the five main psychological barriers to climate action but addresses them with five strategies for how to talk about global warming in a way that creates action and solutions not further inaction and despair These strategies work with rather than against human nature They are social positive and simple making climate friendly behaviors easy and convenient They are also story based to help add meaning and create community and include the use of signals or indicators to gauge feedback and be constantly responsive Whether you are working on the front lines of the climate issue immersed in the science trying to make policy or educate the public or just an average person trying to make sense of the cognitive dissonance or grapple with frustration over this looming issue *What We Think About When We Try Not To Think About Global Warming* moves beyond the psychological barriers that block progress and opens new doorways to social and personal transformation

Latter-day light on the Apocalypse Arthur Paul (of the Free-Presbyterian ch, St. Kilda.), 1898 *Science Fiction and the Imitation of the Sacred* Richard Grigg, 2019-12-26 This book examines science fiction s relationship to religion and the sacred through the lens of significant books films and television shows It provides a clear account of the larger cultural and philosophical significance of science fiction and explores its potential sacrality in today s secular world by analyzing material such as Ray Bradbury s classic novel *The Martian Chronicles* films *The Abyss* and *2001 A Space Odyssey* and also the *Star Trek* universe Richard Grigg argues that science fiction is born of nostalgia for a truly Other reality that is no longer available to us and that the most accurate way to see the relationship between science fiction and traditional approaches to the sacred is as an imitation of true sacrality this he suggests is the best option in a secular age He demonstrates this by setting forth five definitions of the sacred and then in consecutive chapters investigating particular works of science fiction and showing just how they incarnate those definitions *Science Fiction and the Imitation of the Sacred* also considers the qualifiers that

suggest that science fiction can only imitate the sacred not genuinely replicate it and assesses the implications of this investigation for our understanding of secularity and science fiction **Narratives for Nature** Natascha Zwaal, 2003
