

## JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Filling the learning gap in program implementation using participatory monitoring and evaluation Elias Zerfu, Sindu W. Kebede, 2013-03-29 This study is motivated by the idea that even though participatory monitoring and evaluation PM E is widely accepted as a tool to manage development programs to be effective its application is widely constrained by its high start up resource requirements in terms of both finance and time However this paper argues that after the initial investment is made the payback from using PM E is much higher both in terms of grassroots level learning empowerment and capacity building and in terms of higher level strategic decision making which enhances impact This is demonstrated using field level experience of implementing PM E in farmer field schools FFSs under the Agricultural Services Support Program and Agricultural Sector Development Program Livestock ASSP ASDP L program in Zanzibar Tanzania After describing the major steps followed in designing and implementing a PM E for FFSs the major lessons learned and challenges faced in the process are discussed The study found out that PM E has enabled the tracking of technology uptake and reasons behind adoption and nonadoption of technologies through detailed data collection This informed and improved decision making at a higher level to design feasible methods to scale up adoption at other FFSs and to devise solutions for nonadoption The need for incentives to undertake PM E was found to be one of the major challenges of implementation among others **Fundamentals of**
