

Ancient Egypt

In ancient Egyptian land, where pyramids stand,
The Nile flows through the sand.

With golden treasures, kings once reigned,
And pharaohs' power never waned.

The Sphinx stands tall with a secret face,
The guardian of time and space.

Ancient tombs with treasures bright,
Shone under Egypt's starry night.

Hieroglyphs tell stories old,
Of wonders buried and treasures held.

So let's imagine and take a glance,
Back at Egypt's grand, ancient dance!

Children Philosophize

Worldwide Eva Marsal, Takara Dobashi, Barbara Weber, 2009 Philosophizing for with and by children in a community of inquiry has proven to be an internationally successful learning strategy that enhances both the cognitive and emotional growth of children. Pioneering democratic programs for philosophizing with children now exist throughout the world. The work described in this book represents the latest research on theoretical concepts and applied projects within this field and brings together contributions from twenty nine countries representing all continents. The authors address questions on the theoretical foundation of Philosophy for Children, the application of philosophical methods, the community of inquiry, international and national didactical concepts as well as the evaluation of those concepts. A primary goal of this book is to enhance intercultural academic exchange and to encourage further research and practical work in this field. Chicorel

Medicine and Healing Practices in Ancient Egypt Rosalie David, Roger Forshaw, 2023-12-01

Medicine and Healing Practices in Ancient Egypt provides a new perspective on healthcare and healing treatments in Egypt from the Predynastic to the Roman periods. Rather than concentrating exclusively on diseases and medical conditions as evidenced in ancient sources, it provides a people-focused perspective asking what it was like to be ill or disabled in this society. Who were the healers? To what extent did disease occurrence and treatment reflect individual social status? As well as geographical, environmental and dietary factors which undoubtedly affected general health, some groups were prone to specific hazards. These are discussed in detail, including soldiers' experience of trauma, wounds and exposure to epidemics and conditions like blindness, sand pneumoconiosis, trauma and limb amputations resulting from working conditions at building and other sites. Methods of diagnosis and treatment were derived from special concepts about disease and medical ethics. These are explored as well as the individual contributions and professional interactions of various groups of healers and carers. Medical training and practice occurred in various locations, including temples and battlefields; these are described as well as the treatments and equipment that were available. Ancient writers generally praised the Egyptian healers' knowledge, expertise and professional relationship with their patients. A brief comparison is drawn between this approach and those prevailing elsewhere in Mesopotamia, Greece and Rome. Finally, Egypt's legacy transmitted through Greek, Roman and Arabic sources is confirmed as the source of some principles and practices still found in modern Western medicine. Combining information from the latest studies on human remains and the authors' biomedical research, this book brings the subject up to date, enabling a wide readership to access often scattered information in a fascinating synthesis.

Famine and Feast in Ancient Egypt Ellen Morris, 2023-07-06

This Element is about the creation and curation of social memory in pharaonic and Greco-Roman Egypt. Ancient Classical, Medieval and Ottoman sources attest to the horror that characterized catastrophic famines. Occurring infrequently and rarely reaching the canonical seven years length, famines appeared and

disappeared like nightmares Communities that remain aware of potentially recurring tragedies are often advantaged in their efforts to avert or ameliorate worst case scenarios For this and other reasons pharaonic and Greco Roman Egyptians preserved intergenerational memories of hunger and suffering This Element begins with a consideration of the trajectories typical of severe Nilotic famines and the concept of social memory It then argues that personal reflection and literature prophecy and an annual festival of remembrance functioned at different times and with varying degrees of success to convince the well fed that famines had the power to unseat established order and to render a comfortably familiar world unrecognizable
