Function Family Application

Identifying Function Families in

Example: It's only Tuesday and we've already made four calls to the gym. The gym membership is supposed to cost \$100, which is right. The club that charges \$10 a month is \$100 a month. If you're looking for a gym membership, which is the number of months you want to join?

1. Name the function family. What aspects of the membership situation indicate that it belongs to that family?
2. Make a table to represent the situation.
3. Use technology to graph the function.
 - What is the slope?
 - What is the y-intercept?
 - What is the x-intercept?
4. Name the situation. Does it make sense? For example, is the membership within the context of the situation?
5. Identify the independent variable in the situation.
6. Identify the dependent variable in the situation.
7. Give a description of the situation in the context.
