

# Situational Interview: Sample Answer

If I had to take a leadership role without formal designation, I would start by having a quick call with the team to discuss and delegate tasks.

SET THE SCENE

We recently had a particularly busy week in the customer support department, with a sudden influx of inquiries and escalations, while our team lead was on vacation.

SITUATION

I recognized the need for someone to take charge and ensure that customer issues are addressed promptly and effectively, even in his absence.

TASK

I organized a short meeting with the team, explained that I would be willing to step up and take on a leadership role temporarily. I was looking for their reactions, input and support. I then delegated tasks based on each person's tech skills and strengths, and tried to ensure everyone felt valued and motivated.

ACTION

Things went well and we managed to resolve 100% of requests. I managed to distribute the workload well and keep a positive work environment.

*The Manager's Book of Questions: 1001 Great Interview Questions for Hiring the Best Person* John Kador, 2007-04-10 How do you find the best candidate for any job Know what questions to ask To hire the right talent the most vital contribution a manager can make to a company it's crucial to learn if a candidate will be a team player a good leader or a dud To get the answers you need as a manager you have to ask the right questions and that's why The Manager's Book of Questions has been a bestseller for nearly a decade **Finding the Best and the Brightest** Peg Thoms, 2005-07-30 Finding the Best and Brightest proposes an approach to choosing leaders based on a set of criteria designed to align individual qualities with organizational or institutional goals Peg Thoms challenges the popular trend in theory and practice toward transformational or visionary leadership arguing instead that leadership must be developed in context many organizations for example don't need visionaries as much as they need operational leaders who get things done by focusing on present day tasks such as designing superior products and delivering exceptional customer service This book provides guidance for how to recruit select and retain the right people for leadership positions at any level of the organization Drawing from research conducted in the private public and non profit sectors Thoms features powerful examples of effective and ineffective leadership in a variety of situations and sheds light on the complex relationships between leaders and those who follow them We all choose our leaders We hire them to run our companies We vote them into office We appoint them to committees We decide to work for serve and follow them In fact all leadership is relative by taking direction or orders going to bat or war marching behind listening and agreeing we are choosing to allow another individual to lead us Whether the stage is a corporation a country a club a school or any other organization effective leaders matter Yet despite such high profile examples of leadership disasters from the California recall of Gray Davis to the fall of such business titans as Ken Lay and Sam Waksal we continue to choose hire and elect poor leaders Finding the Best and Brightest explores this phenomenon in business politics and other sectors of

society and proposes an antidote an approach to choosing leaders based on a set of criteria designed to align individual qualities with organizational or institutional goals Peg Thoms challenges the popular trend toward transformational leadership which focuses on identifying universal characteristics arguing instead that leadership must be developed in context Many organizations for example need operational leaders who can focus on present day tasks such as designing superior products and delivering exceptional customer service and not inspirational or visionary leaders whose otherwise admirable qualities might be ill suited to the challenges at hand Outlining six typical leadership search scenarios from school principal to hospital CEO Thoms shows readers how to identify the traits and behaviors that are most essential for the position and how to structure interviews and other search techniques to elicit the most informative responses and home in on the best candidates She also reminds us that many organizations fail not because they can t find good leaders but because they can t keep them and offers strategies to promote leadership development Whether you are an executive giving the nod to a new department head a concerned citizen casting your vote for a municipal councilman a club member choosing a new president or an aspiring leader deciding which offer will provide the greatest growth opportunities Finding the Best and the Brightest offers fresh insights on the dynamic relationship between leaders and those who follow them [Best Answers to the 201 Most Frequently Asked Interview Questions](#) Matthew DeLuca,1996-09-01 MORE answers to MORE questions than any other interviewing guide Sell yourself with style and win the interview game The most crucial part of your job search is knowing how to respond to the toughest interview questions because the best candidate doesn t necessarily get the job the best interviewee does In Best Answers to the 201 Most Frequently Asked Interview Questions career expert Matthew J DeLuca reveals the secret agenda behind every kind of question interviewers ask and prepares you to answer them all Never again be at loss for words when an interviewer hits you with an icebreaker thought provoker curve ball stress tester and even an illegal question that shouldn t be asked but needs an answer **50 Winning Answers to Interview Questions** Charles F.
